Description/Identification of Cattle

Property of Origin/PIC Number	No. Head	Identification Brands/Tags/Other	Category*	Sex**

*Category: Feeder (F); Slaughter (S);

**Sex: Male (M); Castrate (M-); Female (F); Female Spayed (F-)

Declaration for Pregnancy Testing *(completed by veterinarian/competent pregnancy tester only)*

-All declarations must be accompanied by the animals individual NLIS identification number and date of procedure. All declarations must include their name, registration/accreditation number and signature.

I, _____ (name), being the vendor / authorised management representative of _____ (vendor / property name) declare the cattle described above and presented for export were all pregnancy tested on _____ (date within 30 days of export) by _____ (name of registered veterinarian or competent accredited pregnancy tester*) and were declared to be not detectably pregnant by manual palpation or an approved blood test (as accreditation/authorisation permits).

* a competent pregnancy tester is a person accredited the relevant state or territory agency, or industry body if accepted by the state or territory. For feeder/slaughter cattle or buffalo this can only be by manual palpation.

** Registered veterinarians may use ultrasound if animals are too small to be manually palpated.

OR

Declaration for Spaying *(completed by owner or manager where the procedure was performed if applicable)*

-All declarations must be accompanied by the animals individual NLIS identification number and date of procedure. All declarations must include name, contact information and signatures of owner or manager where the procedure is performed.

I, _____ (name), being the vendor / authorised management representative of _____ (property name) declare the cattle described above and presented for export were all spayed, using the Willis dropped ovary technique, at least thirty (30) days prior to _____ (anticipated date of export) or have been spayed not less than 280 days prior to _____ (anticipated date of export).

AND

Declare the cattle described above and presented for export were not treated with prostaglandin within fourteen (14) days of export, or any other drug intended or likely to cause abortion or induce premature calving.

Signed: _____ Dated: _____
